EDUCATION

MCT Rajiv Gandhi Institute of Technology, Andheri

B.E - Computer Science

2022 – 2026

Mumbai, Maharashtra

ACHIEVEMENTS

- Developed **50+** software solutions and **10+** web admin panels using **Flutter technology**.
- Deployed **10+** live websites and published **7+** apps on **Play Store & App Store** with **100+** downloads.
- Achieved **1.56M+** Impressions & **2K+** Conversions with **2000+** Real-Time Users across active apps.

EXPERIENCE

Software Engineer at MagicMond

Jun 2025 - Present

- GRAH9 CRM** for managing **Financial Health** & visualizing **Meta Ads** data to track purchases efficiently
- Engineered **PTR, PNR & Dosha Detector** solutions using **OpenAI & Divine API** for product growth.
- Developed an **AstroTry app** and implemented **Razorpay payment gateway** with a robust **admin panel**.
- Learning Analytics**, optimizing **App Management** & solving complex problems with **UI/UX** teams.

Flutter Intern at Reidius Infra

July 2024 - May 2025

- Boosted **business efficiency by 70%** via automated **PDF generation, payments** & replacing **Excel** work
- ReidiusOne CRM** for **500+** clients, automating workflows via **Interakt** messaging & **Leegality E-Sign**.
- Created **Plum Web/App**, enhancing **business capabilities by 30%** via **Firebase** automation.

Flutter Intern at Chemisphere

Jun 2024 - Sep 2024

- Facilitated students to attempt **test series**, enhancing **learning outcomes**, with **50+** students using the app daily for **consistent practice** and providing visualized **progress analysis**.
- Enabled **real-time live lectures, test scorecard generation, result analysis**, and **progress tracking**.
- Created an **admin panel** for managing **student batches, test series, notes, PYQs**, and **live classes**.

PROJECTS

E-Commerce App + Admin Panel | Flutter, Dart, GetX, Firebase, PieChart & Graph,Table Sep 2024

- Implemented a **real-time dashboard** to analyze total daily, and weekly sales, **order visualization**, and **customer management**, while monitoring visiting customers, resulting in **increased business efficiency**
- Facilitated **customer engagement** through features like **cart items, favorite products**, and **profile management**, tracking of past **order history**, along with secure transaction integration using **Razorpay**.
- Designed a **user-friendly interface** for **banners, brands, categories, sub-categories**, and **products**.

SheShield App + Admin Panel | Flutter, API, GeoLocator, Google Map, Firebase, GetX March 2024

- Implement women safety solutions such as live location sharing, **mobile shaking** feature, **SOS help**, safety tools and **AI ChatBot** for quick help, allow to **report incidents** with **Crime analysis dashboard**
- Identified **city-wise crime** trends and visualizations to help **police track** and respond to rising incidents
- Predict hotspots** based on past reported incidents and **alert users** when they enter an **incident hotspot**

Flutter Object & Mask Detection App | Flutter, TFLite Model, Dart Teachable Machine Oct 2023

- Implemented real-time **Object Detection** with **TFLite** to detect objects captured by the **Device Camera**
- Implemented app technique to **detect wearing masks**, promoting **public health** and **safety measures**
- Designed friendly interface using **TensorFlow ML** techniques and create a model on **Teachable Machine**.

TECHNICAL SKILLS

Languages & Frameworks: Dart, Flutter (GetX, Provider, BLoC), TypeScript, Node.js, Express.js, Java, C.

Databases, Cloud & Backend: Firebase, PostgreSQL, MongoDB, Supabase, AWS, Vercel, MySQL, Hive.

APIs, Tools & Integrations: OpenAI, Google AI, ML Kit, TFLite, Google Maps, Razorpay, Stripe, Interakt, Leegality, WebSocket, Pabbly Connect, In-App Purchase, Git & GitHub, Postman, Android Studio, VS Code.

CERTIFICATIONS

- 24-Hour Hackathon – SPIT** (Advanced Vehicle Dispatch App)
- PIWOT Imagine Hackathon – PAN-IIT** (Agreement Management System)
